<b>6. Weather Forecast for Period (Only if significant to Operations)</b>		
<p>Rivers: Water within the rivers continues to recede. All rivers have dropped below minor flood stage, meaning the water has returned to the channels.</p> <p>Harris County Branch and Branch II: Patchy morning fog or haze is possible. Cannot rule out an isolated shower or thunderstorm developing in the afternoon around the Beaumont-Orange-Port Arthur region of Branch II, otherwise no precipitation is expected elsewhere. High temperatures will top out in the middle 80s to lower 90s, with heat index values reaching the lower and middle 90s. Overnight low temperatures will range from the lower to middle 70s. Winds will be from the southeast at speeds of 8-13 mph, with few gusts around 20 mph possible in the afternoon. Other than patchy morning fog, anticipate Visual Flight Rules for air operations.</p> <p>Branch VI and Branch III: Patchy morning fog or haze is possible. No precipitation is expected this period. High temperatures will top out in the upper 80s to middle 90s, with heat index values reaching the middle and upper 90s. Overnight low temperatures will range from the lower to middle 70s. Winds will be from the southeast at speeds of 10-15 mph, with gusts around 25 mph possible in the afternoon. Other than patchy morning fog, anticipate Visual Flight Rules for air operations.</p>		
<b>7. General/Safety Message</b>		
<p>Update of nurse telephone:</p> <p>The Federal Occupational Health Clinic is now open: Hours: 7 AM - 7 PM Location: Next to the Safety Office north end of store Phone: 210-480-0974</p> <p>Rest is essential. Be part of the solution, not part of the problem. Get your rest.</p> <p>Heat Stress</p> <p>Excessive heat presents a serious hazard for employees, especially when coupled with high humidity. When the body is unable to cool itself by sweating, several heat-induced illnesses such as heat stress or heat exhaustion and the more severe heat stroke can occur, and can result in death. High temperature and humidity, direct sun or heat, limited air movement, physical exertion, poor physical condition, some medicines, and inadequate tolerance for hot environments are all factors that can lead to heat stress.</p> <p>If a worker is exhibiting the signs or symptoms of heat-related illnesses (excessive sweating, cramping, headaches, nausea and weakness), summon emergency medical services at once. While waiting for help, move the worker to a cool shaded area. Loosen or remove heavy clothing. Provide cool drinking water. Fan and mist the worker with water.</p>

- FEMA has deployed more than 1,800 inspectors to Texas and completed more than 90,000 inspections of homes damaged by Hurricane Harvey. Due to the magnitude of Hurricane Harvey, it may take up to 21 days for a FEMA inspector to contact an applicant and schedule an inspection. In general:
  - o Don't wait to clean up. Take pictures of the damage. Start repairs to make your home safe and livable again or prevent further damage to your property. Save your receipts to show the inspector.
  - o Displaced survivors unable to meet an inspector at their damaged home can designate an "Authorized Agent" who can be present during the inspections—such as a trusted neighbor or relative. If you don't have someone in the area who can serve as your agent, the inspector can arrange for a FEMA employee to act as your agent and represent your interests.
  - o Both homeowners and renters must provide identification and proof of occupancy—such as a lease, rent receipt or utility bill. Homeowners will also be asked to provide proof of ownership, such as a property deed or title, mortgage payment book, property insurance policy or tax receipts.
  - o For more information visit the FEMA website at: [www.fema.gov/hurricane-harvey](http://www.fema.gov/hurricane-harvey) to view the fact sheets and infographics: What to Expect After You Apply for FEMA Aid, Separating Your Debris, and 8 Tips on Mold Cleanup.
- Dozens of FEMA teams are canvassing shelters and visiting storm-damaged communities. Using hand-held tablets, DSA team members can help survivors register for disaster assistance, update information on applications and make referrals to community partners. Members carry FEMA photo IDs. If their photo ID is not displayed, ask to see it.
- One more Disaster Recovery Center opened today in Beaumont. That brings the total to 17 DRCs throughout Texas. State and FEMA officials continue to work closely with local officials in hard-hit areas to identify suitable and accessible sites for recovery centers. Download the FEMA mobile app to your smartphone to find the nearest DRC and its hours. Before visiting a DRC, register with FEMA online at [DisasterAssistance.gov](http://DisasterAssistance.gov).

FEMA is committed to providing effective communication to survivors. Sometimes accommodations and modifications are required to ensure equal access and equal opportunity to all FEMA programs.

Here are some examples of accessible communication modalities you may need to provide:

- Language or American Sign Language interpreters
- Assistive listening devices
- Materials in large print or Braille
- CDs or thumb drives with documents used or provided
- CART (Communication Access RealTime Translation)

Remember there are many types of disabilities and therefore, many different types of access and functional needs that survivors will face on a daily basis.

Disability Integration Advisors are available to provide guidance and assistance to ensure all of our efforts are inclusive of the whole community.

Reasonable Accommodation Requests

Disability Integration American Sign Language (ASL) Interpreters are available to assist with communicating with survivors while in the field.

As soon as possible in advance of the time the interpreter is needed, contact Carole Stevenson (email [carole.stevenson@fema.dhs.gov](mailto:carole.stevenson@fema.dhs.gov) or 202 709 2297 text or voice) with the date, time and location of the event or meeting.

**GENERAL MESSAGE (FEMA ICS FORM 213)****TO:** All Hands**POSITION:****FROM:** Jonathan Byrd**POSITION:** Safety Officer**SUBJECT:** Safety Message**DATE/TIME:** 08/29/2017 1700 CDT**MESSAGE:****IF YOU ARE IN AN ACCIDENT**

Below are some tips for handling and reporting any accidents that occur while you are driving a rental car, a government-owned or leased vehicle, or personal vehicles while on official sanctioned FEMA business.

1. Check for personal injuries to other parties and yourself and call for help if necessary.
2. Contact the local police if applicable.
3. Don't move the vehicles unless the cars are obstructing traffic flow.
4. You should NOT make any statement that admits guilt or fault to anyone, or make statements as to paying for damages.
5. If a police officer asks you for proof of insurance, provide the officer with the insurance card for the rental car. Additionally, you can hand out the accident brochure that is available from the Safety Office that provides information and lists contact numbers for FEMA's claims specialists.
6. Don't provide the other driver with your personal insurance information. Instead, provide the other driver with the following claims contacts

Phone: 202.646.4326

7. Write down the other driver's information, including: name, address, phone number, insurance information (including policy number if available), driver's license number, state where the driver's license was issued.

8. Contact the following individuals: The Safety Officer, The Security Officer, your Supervisor and your rental car company if applicable.

9. Complete the rental car company's accident report. Complete Standard Form (SF) 91 Motor Vehicle Accident Report. Your supervisor must sign the report to verify that you were operating the vehicle within the scope of your employment. Make sure you attach a copy of the rental contract and any available police report, pictures and any reports you made to the rental car agency.

## **PREVENTING CAR THEFT & BREAK-INS**

- Never leave your car running or the keys in the ignition when you're away from it, even for "just a minute."
- Always roll up the windows and lock the car.
- Never leave valuables in plain view, even if your car is locked. Put them in the trunk or at least out of sight.
- Park in busy, well-lighted areas.
- Carry the registration and insurance card with you.
- Don't leave personal identification documents or credit cards in your vehicle.
- When you pay to park in a lot or garage, leave just the ignition key with the attendant. Make sure no personal information is attached.

## **WHAT ABOUT CARJACKING?**

Carjacking—stealing a car by force—has captured headlines in the last few years.

Statistically, your chances of being a carjacking victim are very slim, and preventive actions can reduce the risk even more.

- Approach your car with the key in hand. Look around and inside before getting in.
- When driving, keep your car doors locked and windows rolled up at all times.
- Be especially alert at intersections, gas stations, ATMs, shopping malls, convenience and grocery stores—all are windows of opportunity for carjackers.
- Park in well-lighted areas with good visibility, close to walkways, stores, and people.
- If the carjacker has a weapon, give up the car with no questions asked. Your life is worth more than a car.

## **BEWARE OF THE "BUMP-AND-ROB"**

It works like this. A car, usually with a driver and at least one passenger, rear-ends or "bumps" you in traffic.

You get out to check the damage.

The driver or one of the passengers jumps in your car and drives off.

If you're bumped by another car, look around before you get out. Make sure there are other cars around, then check out the car that's rear-ended you and who's in it. If the situation makes you uneasy, stay in the car and insist on moving to a police station or busy, well-lighted area to exchange information.

Keep in mind that if you're a driving a FEMA rental car, the police must be called to take a report if there is damage or injury.

# Vehicle Accident Reporting

For a Government Vehicle

L 268 / October 2009

FEMA

## Vehicle Accidents

Many FEMA disaster employees use rental vehicles on a daily basis to perform their work. These “Government vehicles” may be used only for the conduct of official agency business, which includes traveling between a temporary duty station and temporary residence and similar places necessary for the sustenance, comfort, or health of the employee.

When a vehicle is used for official purposes, the government covers the employee for accident liability and worker’s compensation. This policy covers GSA vehicles, rental vehicles, and personal vehicles while on officially sanctioned FEMA business.

Unauthorized use of a rental vehicle is considered personal use and is not considered to be “official travel” or “official use of the vehicle.”

## When an Accident Occurs...

If you should get in a vehicle accident while on official government business, follow these procedures.
